

Philadelphia

My Dear friend

I rejoice to hear of your contemplated visit to Europe, & feel very thankful for your kind offer to purchase any little philosophical toy or chemical miscellany - All I can say is that if you should meet with something of this sort which you think worth purchasing for your self - I would rejoice to have duplicates, but I am so poor that I cannot advance the cost - I should not like to exceed \$50 provided this money is done with convenience to yourself - If you go to London don't fail to become acquainted with my good friend John S. Gray of the British Museum - you find him all that you desire - I should like to send to Philadelphia a copy of my Trilobites but I fear I shall not have an opportunity to forward them to you - With my best respects to Mrs. Torrey, & my warmest wishes & prayers for your pleasant passage & safe return it remains  
Your friend  
Jacob Green
